Every aircraft has to be

trimmed correct, so the 737-300 as well. Trim the aircraft a bit Nose-up. As we don't have any Trim Display use the HUD and set the trim nose-up to 1/3. Set the flaps to 5 (3 notches) Now we have to figure out our speeds we need. The Aircraft Help with the F10 key-> Help will give us the right numbers.

The 737-800 featured in X-Plane-11 has been modeled by our design team with a degree of accuracy that ensures its flight characteristics are like the real aircraft. However, despite this, some differences will be

apparent, because even the smallest factor

X-Plane 11
737-500 and 737-600 and 737-700 models, the model designator will show 737-400 – 737-700. If information is applicable to models that are not consecutively numbered, a comma (,) is used in the model designator. For example, if information

is applicable to only 737-300 and 737-800 models, the model designator will show 737-300, 737-800. Model ...
