Each air condition unit has 2 intake "return" vents which means there could be a max of 4 return vents (2 A/C units) in an Airstream. As the supply vents feed the cooled air to the interior, the return vents pull air out of the indoor space which removes the "unconditioned" air and also feeds the air to the cooling system. Additional Benefits

The model number can usually be located on the back or base of the product either on a white or silver label like this: Please fill-in the form with the type or model number

Product Instruction Manuals by De'Longhi

Recently Airstream has a "ducted climate control" system that is (thankfully) supposed to be much more quiet which is the other big issue with our air conditioning unit. But it still requires a 30 amp power supply to run. Four-season support. This isn't going to happen with an Airstream by design, they are three-season aluminum trailers.

40+ Things We Would Change on our Airstream Trailer ...

(The timer lamp on the air conditioner and the display will go off.) Owner's Manual 17... Page 18: Up/Down Airflow Direction Control This function is useful in the situation of power failure. When power regains after a failure this feature restore the previous operating condition and the air conditioner will run in the same settings.
