While modern books are born digital, books old enough to be in the public domain may never have seen a computer. Google has been scanning books from public libraries and other sources for several years. That means you've got access to an entire library of classic literature that you can read on the computer or on a variety of mobile devices and eBook readers.

In the spring of 1968, Chevrolet and Fisher Body teamed up to create a new Chevy II body style. The project was code named "El Zorro". Fisher Body built this concept vehicle for GM management reviews. The El Zorro appears to be a hatchback, however only the rear window opened for access to the truck area.

Coordinates. Fisher Body was an automobile coachbuilder founded by the Fisher brothers in 1908 in Detroit, Michigan; it had been a division of General Motors for many years, but in 1984 was dissolved to form other General Motors divisions. Fisher & Company (originally Alloy Metal Products) continues to use the name. The name and its iconic "Body by Fisher" logo were well known to the public, as ...
