Hello guys, I have a 05 sportster with just under 10,000 miles on it, carbureted. I just got home from a 100 mile ride and during the ride my engine light kept coming on and then going off a few seconds later. I have Vance and Hines pipes (short shots), a heavy breather air cleaner with a...

### Intermittent engine light | Harley Davidson Forums

The engine may start when connecting a jumper wire to the data link connector. This is normal during the diagnostic testing phase. The "check engine light" will continue to flash any existing codes as long as the ignition switch is on and the jumper wire is in place of the data connector link.

### How to Pull Engine Codes From a Harley Davidson | It Still ...

The check engine and temp lights come on after a few miles. I checked the codes and got codes P1019 and U0184. I also checked the fans come on when I test them but when needed. I changed the temp sensors in the head and radiator in the left lower fairing. The U0184 code went away but the light still comes on and I still get code P1019. Reply

### SOLVED: 2000 fatboy red engine light comes on odometer - Fixya

Engine check light comes on for 8 seconds. After that, the check light will count off the trouble code. If you have resolved the problem associated with the trouble code, then the solid check engine light after ignition on will shut off after 50 - 100 starts, depending upon the model year of the ECM installed on your bike. Good luck.
