Hey, I need a bad example of technical writing document that I can revise for my english class. It has to be made for print. Its supposed to be around 5-7 pages, and in need of a redesign to increase its readability and utility. If you can find anything, that would be great! Thanks in advance.

I need a poorly written technical document to redesign for ...

7.7 Writing Instructions. One of the most common and important uses of technical writing is to provide instructions, those step-by-step explanations of how to assemble, operate, repair, or do routine maintenance on something. Although they may seem intuitive and simple to write, instructions are some of the worst-written documents you can find. Most of us have probably had many infuriating experiences with badly written instructions.

7.7 Writing Instructions - Technical Writing Essentials

I would say that you are not nuts, but this probably isn't the world's most poorly written news article. The writer probably shouldn't have or didn't graduate from a decent journalism school, but this isn't bad for, say, a high school paper.
