Manual Transmission Oil Change Interval

Manual Transmission Fluid Change Interval The manufacturers of most vehicles recommend that you change your manual transmission fluid at least every 30,000 miles or at the most 60,000 miles, depending on the make and model of the manual vehicle. You'll want to check your car manual for the actual recommended interval.

How Often to Change Transmission Fluid (Manual and Automatic)

If you drive manual, most manufacturers will recommend changing your transmission fluid every 30,000 to 60,000 miles. If you have automatic, you can typically boost that range up to 60,000 to 100,000 miles. There's no harm in changing your fluid early.

When to Change Transmission Fluid? | Ira Toyota of Manchester

Your car's manual transmission fluid is more important than you think. Though it doesn't have to be changed as often as motor oil, fresh gearbox fluid keeps your stick-shift transmission from ...

How to Change Manual Transmission Fluid - Why and When to ...

The first thing to bear in mind is that over-doing it with automatic gearbox oil changes is never a bad thing. You won't harm your transmission by changing the oil more often than the manufacturer recommends. The low end for an automatic transmission fluid change interval is around 30,000 miles (a little under 50,000 km).

How Often Do You Need to Change Your Automatic ...

A lot of mechanics say that is too long and that it should be done at least every 50,000 miles. Manual transmissions require more conventional gear oil rather than automatic transmission fluid and...

Do You Really Need to Change the Transmission Fluid ...

Honda recommends the transmission fluid be changed every 37,500 miles under "severe" conditions and every 120,000 under "normal" conditions. In my 30+ years of working on vehicles and maintaining my own vehicles, I recommend a more in the middle schedule. Every 4 years or 50,000 miles always worked for me no matter the vehicle.

How often should I change my transmission fluid? honda tr...

I've used Amsoil 75-90 for many years and I'll go 10 years/100k miles, which is their recommended change interval for normal use. Give those grease zerks on the driveline a pump or two of chassis lube every oil change. If you take it to a shop to have oil changes done, they sure won't do it so you have to do it yourself. monkeyface, Aug 29, 2013
