Hello, I'm not familiar with the mercruiser 140, but by the pics Google show its the same engine we have here in Brazil wich equiped Chevy Opalas made from 69 to '90. This engine derivates from the 153" engine wich equiped the early Novas. The version you have have 4" bores and its the Pontiac version of the 153" with a 8 port head.

anyone rebuilt a Mercruiser 140? - Don Terrill's Speed-Talk

Starting in 1995 all that GM produces is the 140 Hp longblock. The new 3.0L longblocks are offered to be used as a replacement either way for which ever version of the engine that you have. Since the 3.0L marine engines are not used in automotive applications there aren't enough cores to support a good remanufacturing option in our opinion.
