Archive of "Pharmaceutical Biology".

Pharmaceutical Biology Medicinal plants have been historically the first drugs used to alleviate diseases, and secondary metabolites produced by living organisms remain the most prolific single source of inspiration for the development of new drug substances.

Pharmaceutical Biology | Departement Pharmazeutische ...

Biomedical engineering (BME) or medical engineering is the application of engineering principles and design concepts to medicine and biology for healthcare purposes (e.g., diagnostic or therapeutic). BME is also traditionally known as "bioengineering", but this term has come to also refer to biological engineering.This field seeks to close the gap between engineering and medicine, combining ...
