## **Understanding Oracle Real Application Clusters (RAC) best ...**

Oracle Clusterware is run by Cluster Ready Services (CRS) consisting of two key components: Oracle Cluster Registry (OCR), which records and maintains the cluster and node membership information; voting disk, which polls for consistent heartbeat information from all the nodes when the cluster is running, and acts as a tiebreaker during communication failures.

## **Oracle Clusterware - Wikipedia**

Another new option with Oracle Database 10g with RAC is to use RAC without a vendor cluster manager. In Phase 3, the steps are described about how to migrate an Oracle RAC database that uses HP Serviceguard (Oracle 10g) to use the Oracle integrated clusterware (Oracle 10g), known as Cluster Ready Services (CRS).
